River Forest High School

Hobart, Indiana

Volume III

A black and white photograph of a modern, single-story school building. The building has a flat roof and large windows. The words "RIVER FOREST HIGH SC" are visible on the upper right side of the facade. The entrance area features a series of glass doors and windows. The foreground shows a paved area with some shadows.

Foreword

Steel—the backbone of the nation. Without it, buildings eventually crumble and bridges collapse. Steel is strength, austere and unyielding. True, it can be shaped to a desired position, but once hardened, its characteristics are forever embedded in its sphinx-like structure.

Nevertheless, the permanence of a nation is not determined by the structure of its buildings or the stability of its bridges; rather, it is determined by the strong and true, steel-like characteristics of its young people. These young people must be as solid as steel—human steel—never succumbing to wrong, but constantly doing what is right.

Thus River Forest High School can be considered a “melting pot of knowledge” of “human steel” production. In a four-year process, this “melting pot of knowledge” transforms comparatively “raw material” into refined River Forest Ingots.

Those in charge of production are the faculty and administration. The teachers light the “fires” of learning in the classrooms and “ladle” in the “loads” of information needed for the Ingots to absorb. Through constant testing, the Ingots are yielded to proper “consistency.” The administration is always searching for ways of improving production.

Many elements go into the making of an Ingot. Learning is the primary element, which serves to purge out impurities and strengthen an Ingot's mind. Athletics “charge” him with spirit and unite him with fellow Ingots in solid support of his team. Clubs rehearse the Ingot in the part that he must later play in life, that of a steel beam supporting only a fraction of the responsibilities and problems of society. Citizenship is embedded in an Ingot's character by good example and guidance. These things all go into the make-up of an Ingot, and they all take careful planning.

Culminating the four-year “processing” period, is graduation. The “raw material” will emerge as full-fledged Ingots, “tempered” to yield the best in service, strength, and wear. They have a great heritage to maintain, for they are “human steel,” River Forest Ingots.

INGOT STAFF

After many hours of hard work, our staff has completed the third Annual Ingot. The Ingot staff hopes you will enjoy it. We are: (*seated*) Diane Guy, Activities Editor; Jean O'Connell, Editor-in-Chief; Sandra Godsey, Business Manager; Edd Lemons, Co-editor; and Tony Valovich, Advertising Manager. (*Standing*) Lewis Sink, Sports Editor; Jerry Ballog, Photographer; Harvey Dickson, Art Editor; Cindy Holder, Senior Editor; Mary Ann Gorin, Clubs Editor; Jane Guy, Ike Singleton, Assistant Sports Editor; and Pat Gill, Circulation Manager.

Administration

Our principals and faculty work hand in hand to improve methods of Ingot production.

*Mr. William H. Green,
Hobart Township Trustee*

Mr. Edward B. Weisse —
Carnegie of Ingot Production

Constantly working to improve River Forest is our Principal, Mr. Edward B. Weisse.

The principals of Hobart Township Schools, all young and aggressive men, strengthen the bond of unity and cooperation in our school system. They are, *from left to right*: Mr. Robert Wainscott, assistant principal of River Forest High School; Mr. Ronald Rife, principal of John Ivan Meister School; Mr. Kevin Grindlay, principal of Henry S. Evans School; Mr. Edward B. Weisse, principal of River Forest High School (*seated*), Mr. Richard Abel, principal of River Forest Junior High; Mr. Frank Knight, principal of River Forest Elementary.

MR. ROBERT WAINSCOTT, Assistant principal and Guidance Director, has performed innumerable services for our students, ranging from class scheduling to student guidance.

MRS. WANITA BAILEY, Guidance Counselor, has done much to aid River Forest students at home and at school. Supervising College Day and Night, finding employment for graduates, and counseling students with home and school problems are only a few of the many services she performs for our school.

Co-ordinators Keep the Wheels Turning

MRS. FRANCES SCHEUER,
secretary to Mr. Weisse.

MRS. ELEANOR KEKELIK, school treasurer.

Upon the shoulders of our school secretaries and treasurer rests a great deal of responsibility. They are "buffers-extraordinaire" since pressures are put upon them to get things done. Without the daily tasks they perform, River Forest would not be able to exist; they keep our school running smoothly. The issuing of school lunch tickets, recording all school organizational accounts, and all other forms of bookkeeping are only a few of the duties performed by our treasurer. Our secretaries answer phone calls, greet guests, aid students, send letters, and execute numerous other school tasks. The students of River Forest have a great deal to be proud of in their diligent secretarial staff.

MISS CAROLE DZIUBLA, secretary to Miss Harrison, and
MISS DORIS BURKS, secretary to Mrs. Bailey.

They Perfect Our Formula

There would be little beauty in life without good food and clean shelter. Our cafeteria workers and janitors provide us with these necessities. Can you imagine a sturdy Ingot without good food? Steel is fine and solid because of the healthy elements put into it. As good steel cannot be made in dirty open hearths, Ingots cannot be taught in untidy classrooms. Our cafeteria staff and janitors perfect the Ingot formula.

Pictured here are the custodians. They are: Mr. Peter Pall, Mrs. Margaret Wozniak, Mrs. Ines Sheppard, Mrs. Grace Kenney, and Mr. Richard Baker.

All this and good food, too! Our cafeteria workers are: Mrs. Garland, Mrs. Magnuson, Mrs. Harper, Mrs. Isakson, Mrs. Matheny, Mrs. McKee, Mrs. Beagley.

Faculty

Ladling in all the loads of information for our students is tough work agree Mr. Charles Bencie and Mr. Ed Satterfield, faculty members, as they pause for quick refreshment.

Seniors — *Processed Ingots*

Our goal is in sight! On May 28, we will bid our last farewell to River Forest and go forward as solid, refined Ingots, ready to be cast into the professional molds of the world. We have tapped the classrooms and library in our quest for knowledge and we will radiate the effects of our search in future endeavors. Shakespeare once called life a "brief candle," but there will never be an end to Ingot generations who will always glow and burn brightly for RF. Memories will also be engraved in our hearts and we Seniors hope that when the other classes think over some of the events of the past year,—the taffy apple sales, the Valentine hearts, the concession stand at the carnival, and the Turn-about Dance, they'll remember the class of '62.

Juniors — Striding Toward Ingot Perfection

If hard work ever was the road to perfection, the Juniors are certainly striding along it at a steady pace. They are in charge of all concessions at home games under the chairmanship of Rita Fahey. Their "Make Slaves Out of North Liberty" float won first place in float competition at our third annual Homecoming. Due to their arduous efforts to increase their treasury, the Juniors are reputed by many as being one of the hardest working classes at River Forest. The result of all their efforts will be realized in the biggest, most memorable dance of the year, the Junior-Senior Prom.

As a money-raising project for their class, the Juniors handled concessions at all the home basketball and football games. Chairman of the concessions committee was Rita Fahey. Each Junior homeroom was assigned a game to sell refreshments at.

Pictured from center to right are the Juniors in charge of concessions. They are Chuck Van Denburgh, Sandra Ray, Judy Bond, John Burks, Barbara Boatright, Jerry Adams, David Clary, and Edd Lemons.

Sophomores — The Happy Elements

The Sophomores have every right to be happy, for this is the year they select their class rings. Their treasury has over \$400 in deposit, due to the efforts of many industrious Sophomores in a school calendar drive. They began the year off right by sponsoring a float in the Homecoming. A hayride and an after-game dance are only a few of the activities they have sponsored.

Freshmen — R. F 's New Material

Our up-and-coming Freshman class is the latest addition to RFHS, the beginning of a new batch of Ingots. A scholastically above average class, the Freshmen were allowed to take biology, which is strictly a Sophomore course. The Freshmen sponsored a booth at our school carnival and have introduced two new clubs to the scene. The Chess Club and the Debating Society were both initiated by the Freshmen. At Christmas time, the Freshman class donated \$20 to a boys' school. The Freshmen have a great future ahead at River Forest.

Our Student Council is a service organization in every sense of the word. As our school regulatory body, they enforce regulations on proper dress, proper behavior in the halls, and hall cleanliness. Council representatives are selected in the homerooms at the beginning of each year and the officers are chosen by the student body in the latter part of each preceding year. Their activities are numerous and include an annual leadership conference, a canned food drive, Mardi Gras dance, and Las Vegas Night.

One of the many fund-raising drives of the Student Council was the canned food drive to fill baskets for needy families. Looking over the collection are Dick Jobansen, Jinny Bond, Tony Valovich, and Donna Flores.

Membership in the National Honor Society is a privilege. It is a service organization for the school and among its projects have been a drive for transportation for a blind boy, a clean-up campaign for the school by providing barrels; dances, bake sales, and acting as ushers and usherettes for different school activities. The Honor Society main-

tains a plaque for the high honor roll and is also in charge of a certain section of the wall which is known as their wall. These projects are led by their officers: President, Lewis Sink; Vice-president, Bill Lute; Secretary, Jean O'Connell; Treasurer, George Semerau.

Science Club Explores

Like to experiment in science? Then the Science Club was made for you. It's a chance for any student who has a particular interest in some phase of science to work on his own and make his own discoveries.

This year, the Science Club sponsored a float in the Homecoming Parade. In keeping with the Science Club's work, their float was entitled "Rocket to Victory."

They have also sponsored an after-game dance called "The Test Tube Twist."

Delving into the realm of science are Larry Frain, Carol Curtis, John Jansen, and Jim Gunderson, as they experiment to find the amount of calories given off by the burner per minute.

Left to right, first row: Linda Prichett, Carolyn Cornet, Jo Ann Simcoe, Janice Arthur. *Second row:* Nadine Humphrey, Linda Dembosky, Sandra Godsey, Judy Norman, Sharon Soohy, Linda Herr.

The Choraliers are a selective group of choir members who perform at special school functions. Their past appearances have been at a Christmas program at Lowell, our College Day Program, the Dec. 17 Christmas Program, and a teachers' meeting.

The Hospital Auxiliary had its beginning last year with the help of Mrs. Bailey. The girls donate their time so that those who are less fortunate because of an illness may have a pleasant stay while in the hospital. These ambitious girls may be seen scurrying about their tasks, such as: mail deliver-

ing, pediatrics, service cart, serving patients, and running errands. Their untiring efforts bring joy into the lives of patients. Officers of the Auxiliary are: Adriana Villagran, President; Sharon Barney, Vice-president; Mary Ann Gorincen, Secretary-Treasurer.

If the people of one nation are ever going to live in harmony with the people of other nations, they must settle their differences, and try to understand each other. This is the primary purpose of the Spanish and Russian Clubs.

The Spanish Club cements the bond of origin that the members possess and acclimatizes them to the American way of life. Mr. Richard Watson, their

sponsor, ably guides them in their endeavors.

The members of the Russian Club strive to further their knowledge of the Russian language and to understand the customs of the Russian people. They do this by seeing slides of Russia and reading books about the Russian people. Their sponsor is Mr. Gene Adamczyk.

P.T.S.A.

To create a stronger bond between parents, teachers, and students, is the objective of the P.T.S.A. One of the first of its kind in Lake County, the P.T.S.A. works in cooperation with students to correlate school and family life. Its activities include the sponsoring of a scholarship fund, a carnival, and the after-Prom party.

Working together to produce strong minds and strong bodies are the Librarian's Club and Gymnastics Club. The Librarian's Club, sponsored by Miss Hazel Harrison, promotes interest in the operations of the library. During the fall, they attended a state-wide Librarian's Conference at Ball State Teacher's College. Their activities include maintenance of certain library facilities and deco-

rating the library during Christmas time.

The newly organized Gymnastics Club is sponsored by Mr. Wilbert Logan. The experienced members of the Gymnastics Club teach the younger members the principles of gymnastics. One of their main objectives is to promote safety while using gym facilities.

Hum of Industry

The River Forest High School Concert Band is under the direction of Mr. James Bruton. They have performed at a number of concerts and for the second year they have joined in a contest. The improvement in the band over past years has made students sit up and take notice. Other schools have also commented on their

talent. The band has an annual candy sale and they have had a great deal of help from the Band Boosters. The boosters have had a great many money-making projects which helped to pay for the uniforms, our cherished Cardinal and Gold.

Bloomin' Beauty Crowned

Her Majesty, Miss Maryanne Tesanovich, was crowned the Third Annual Homecoming Queen on October 7, 1961. She was crowned during halftime of the Homecoming Football game against North Liberty, a victory for River Forest. Doing the honors of crowning Her Majesty was the class president of the class of '61, Terry Erny.

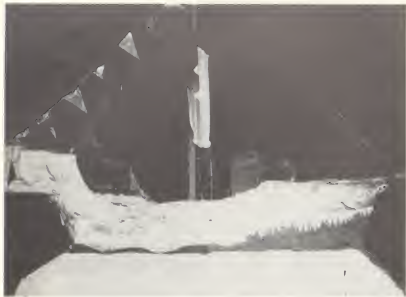

Pictured here is Her Majesty, Miss Maryanne Tesanovich, drawing the winning name of the lot raffled off by the Adult Booster Club. With her, left to right, are Terry Erny, President of the Class of 61, Bill Lute, queen's escort, and William Johansen, President of the Adult Booster Club.

THE THIRD ANNUAL HOMECOMING was a big event for the River Forest Ingots, including students, faculty and alumni. The weekend began with a pep session Friday afternoon, October 6. Later in the evening, the students gathered back at the school for the traditional bonfire. The big night, October 7, began with a parade from the school to the East Gary Field. Miss Maryanne Tesanovich was crowned Homecoming Queen, the Juniors were presented with the float award, and the winning name of the lot was announced during halftime. Also, the River Forest Marching Band and Major-ettes made their first appearance. Later, at a Victory Dance, all Ingots attended in joint celebration.

The Queen and Her Court seem to be enjoying themselves as they are shown here at the Victory Dance following the Homecoming Game. They are, left to right, George Semerau, Barbara Dwight, Freshman Attendant, Lewie Sink, Sandy Ray, Junior Attendant, Jerry Bryan, Carolyn Cornet, Senior Attendant, Bill Lute, Maryanne Tesanovich, Queen, Ronnie Freeman, Mary Hill, Sophomore, Carl Fleck, Faye Fletcher, Junior Attendant.

THE JUNIOR CLASS FLOAT PLACED FIRST in the float competition with its slave ship to victory. The float also had slaves and balloons for a more realistic scene. The theme was "We'll make slaves of North Liberty." Rita Fahey was chairman.

The motto of the Senior Float was "Mow Down North Liberty." Joe Magarac, made of papier mache, was the muscle man in the legend who supposedly bent a steel bar and then straightened it. Krist Nolcheff was chairman.

In an afternoon pep session, the senior football players are pictured here in anticipation of the Homecoming Game. The students were smoldering with excitement as they gave these players, left to right, Jim Mitchell, Dennis Fuerst, Dick Johansen, Norman Maple, Terry Hansen, Larry Baxter, and Leon Gumulauski, a big hand.

Mum is the word. Shown here is Mrs. Martha Willing who is selling Christmas ornaments at one of the stands from the P.T.S.A. Carnival. Students, left to right, are, Ruth Forester, Milena Nehring, and Francine Prusinski.

THE P.T.S.A. CARNIVAL was made a big success by the Ingots that floated in throughout the evening. There were various chance stands, a fortune teller, a cake walk, a talent show, and perhaps the biggest attraction of all, a jail. To have someone jailed, you simply paid the sheriff a dime. The price was the same to be released. Mr. Weisse, was that you trying to borrow a dime to be released?

College Day and Night

Pictured here from left to right are the panel members: Pat Johansen, Valparaiso University; Terry Erny, Indiana Extension; Frank Harmen, St. Joseph's College; Dennis Garber, Purdue University.

"It's not all peaches and cream in college," learned River Forest Juniors and Seniors as they attended the College Day Program on November 30.

A panel of River Forest graduates who are now attending college began the program by revealing the realities of college life to our unsuspecting group. Terry Erny, a '61 graduate of River Forest, moderated the panel, and Frank Harmen, a guest panel member, represented St. Joseph's College in the discussion.

Preparations for this first College Day Program were under the supervision of Mrs. Wanita Bailey, Guidance Counselor, and Mr. Robert Wainescott, Assistant Principal.

"Choosing a college is as important as choosing a mate," stated guest speaker Mr. Don Fleener, Director of Admissions at Indiana Central College. In the opening remarks of his College Night speech, Mr. Fleener insisted that a "zest for learning," should be the primary object for attending college, and not a desire to make good in the financial world.

Informs Students of Campus Life

Pictured here are the guest representatives who attended College Night. They are, from left to right: Mr. Richard Rowray, Dean of Admissions at Ball State; Mr. Clifford Sjogren, Admissions Counselor at Western Michigan; Mr. Carroll E. Black, Admissions Counselor at Wabash College; Mr. Glenn Ocock, Assistant Director of Student Service at Valparaiso; Mr. Gerald Martz, Admissions Counselor at Butler University; Mr. Don Fleener, Director of Admissions at Indiana Central; Mr. Michael Scott, Admissions Counselor at St. Joseph's College; Mrs. Wanita Bailey, Counselor at River Forest; Dr. Lester Wolfson, Academic Counselor at Indiana University.

Representatives from nine colleges attended College Night and presided over the discussion groups which were held that evening. There were three sessions in which River Foresters could obtain all the necessary information pertaining to the colleges of their choice.

The faculty and Honor Society members were present to aid our guest representatives. The River Forest concert band provided entertainment for the evening.

Following the discussions, refreshments were served by the boys' culinary class.

Mr. Clifford Sjogren of Western Michigan gives information about the requirements of his college to Mike Shapleigh, Don Needham, Wayne Bernoska, Ray Oldham, Hubert Stanley, Wayne Potts, George Jansen, and River Forest Teacher, Mr. Earl Studtmann.

Mr. Richard Rowray has the pleasant task of telling River Forest girls, Kathy Schrader, Joyce Paradine, Jean Cogley, and Mary Anne Tesanovich, about college life at Ball State.

River Forest Ingots were Spooks For a Night at the Annual F.B.L.A. Halloween Party on October 31, Halloween night. There was a large number of students who participated in the dancing, games, and other forms of entertainment of the evening. Winners of the dance contest were Jean Cogley and Jerry Ballog. The party was a big success, thanks to Mrs. Langley, Sponsor, and the committee of which Gary Sims was chairman. Pictured at the right are some of the decorations for the party.

The Melting Pot doesn't roll off the press automatically! No, it takes a staff like the one above and a Mr. Satterfield to do the job. Every two months, a Melting Pot "hits the halls" from room 207 and these leaders got a slight rest before the rush for the next issue.

Student Council

The main purpose of this leadership conference was for the various student leaders of the schools in the Gary area to meet and discuss problems common to leaders, particularly in organization.

The Student Body Presidents from various schools are shown here, *left to right*: Barbara Watkins, Froebel; Terry Collins, Hammond Morton; Roberta Beagley, River Forest; Tina Hicks, Calumet; Kathie Zimmerman, Griffith; and, *standing* Pinkie Douglas, Roosevelt.

The Fifth Annual Leadership Conference took place at River Forest on December 6, 1961. After a social hour everyone gathered for the first combined session. R. W. Randhan, the guest speaker, Assistant Vice-president of the Gary National Bank, spoke on "Organization and You." There were discussion groups and later a mock meeting in the auditorium, which the entire student body attended. In the afternoon, there was a discussion group and a final joint session. Richard Abel, Junior High Principal, spoke on "Organization After High School."

Shown with Mr. Randhan are Bobbie Beagley, *left*, student body president, and Maryann Tesanovich, *right*, conference chairman.

The discussion leaders were, *left to right*, Buddy Garland, Marianne Gorincen, Ike Singleton, Gordon Klawitter, Roberta Beagley, student body president, and Mr. Richard Abel, Junior High School Principal and speaker for the afternoon session.

Sponsors "5th Annual Leadership Conference"

This Leadership Conference was the result of a lot of work and time. The committee responsible for this include, *left to right*: Jean Cogley, student body secretary; Maryann Tesanovich, conference chairman; Tony Valovich, treasurer; Sandra Godsey, reporter-historian; and Diane Guy, Vice-president.

This is one of the twelve different discussion groups for the Leadership Conference held on December 6. This particular discussion group was for Vice-presidents of organizations, clubs, or classes. Ike Singleton was the discussion leader; Mrs. Evelyn Lindsey, adult advisor; and Jinny Bond, secretary.

“Senior Hall

Years from now when we think of the class of nineteen hundred and sixty-two, we will especially remember the Senior Hall of Fame. We will remember Norman Maple as the “Mighty Maple” of football. Carolyn Bjerkness had a knack for fun, especially in sports. Everyone will

think of Bill Lute perhaps first of all, for he was our class president for those four wonderful years. He is bound to become a great success with that wonderful personality. Diane Guy, her enthusiastic accomplishments at River Forest speak for themselves. Jerry Ballog and Jean Cogley will be remembered, for they were often the center of attention at the dances. of Fame"

Jean O'Connell, a sweeter girl could not be found, she did more for her class than anyone around. Tony Valovich was a treasurer for more organizations than you can name. We will remember Mary Ann Gorincen and Jim Mitchell for their faithful service in the band at the many

school functions. Mary Ann Tesanovich, or Tessie to her friends, could never be forgotten, for even Cupid was her slave. Then there was Terry Edgington with a twinkle in his dark brown eyes and a very bright smile. Ter was a friend to everyone and of everyone. Last, but certainly not least, we will remember Gayle Galloway and Krist Nolcheff, who not only had looks but also personalities that charmed everyone. Yes, we'll treasure those four wonderful years in memories close to our hearts, but most of all, we'll remember the Senior Hall of Fame.

Armed Forces Day

River Forest held its Second Annual Armed Forces Day, February 12, 1962. A morning session featuring a movie was held for the underclassmen. This program was planned to inform graduating students of the many opportunities available to them in the Armed Forces.

Shown at the right are representatives of the various services: Henry P. Hoffman, U.S. Navy; Brenton Ramsey, Navy; Jimmie G. Hix, Army; Charley Henderson, Army; Jack R. Caskoski, Marines; Franklin R. Patton, Air Force; and Sgt. L. Jungiom, also in the Air Force.

at River Forest

Shown here is the representative from the Marine Corps, Jack R. Caskoski, in one of the two informational discussion groups of the afternoon.

Pictured here is the Air Force Recruiting Officer from Chicago. The Air Force seemed to attract a great many girls. Could it be the uniform by chance. The representative is Staff Sgt. Joan Kauffman, U.S. Air Force.

History Tells of the Past

The vices of Communism are brought out in Mr. Sterling's first period Civics class.

With a rebel yell, Pickett and his cavalry charge up Cemetery Ridge, only to be repelled in a bloody massacre, and the U. S. history class sits spellbound in their seats. The pages come alive with events of the past, as the history class studies the discovery of America, the Revolutionary War, the War of 1812, and the economic conditions that existed in various chapters of American history. Since the beginning of time, man has learned of the deeds of others by word of mouth and by writings. The history class students utilize both methods by intensively studying their text books and by watching historical movies provided for them in the classrooms. To understand the reasons for the different happenings is one of the primary objectives of our history classes.

Civics, the study of the functions of our government is a requirement for all graduating Seniors. Monarchy and the totalitarian forms of government are compared to democracy. Communism is studied thoroughly, and the Seniors now know what is meant by the saying, "Eternal vigilance is the price of democracy."

Mr. Kristoff looks over his class as they outline a chapter of American history.

Karen Lute, Harry Reynolds, Joe Romo, and Terry Radovich find it interesting to investigate the parts of the heart.

Curiosity

Did you know that your body is a blob of protoplasm? This is one of the first concepts realized by students in their study of biology. In biology, the study of life, everything is covered from basic cellular structure to all of the life processes. Inorganic matter and their environmental effects are also studied. Those who have taken biology can never forget their spectacular dissections, particularly taking apart the head of a grasshopper, piece by piece.

A keen desire to learn more about the physical and mental functions of the body will encourage anyone to take health. But this desire is not needed since health is a required subject for all Sophomores. The glandular, circulatory, digestive, and muscular systems are the main divisions of study. This also encompasses the vital organs and the skeletal set-up of the body.

My, this looks like fun! Here we are in Mr. Studtmann's biology class where the students are not so enthusiastically dissecting frogs. Fortunately, the frog feels no pain since its semblance of a brain has been destroyed.

Is Keynote of Science

"A little sulfur, a little iron, some carbon disulfide, and now a nice hot flame." Too bad, he used to be a nice guy. In chemistry, one learns safety in the laboratory at once. The chemistry student must memorize certain chemical combinations. If he is interested in science, he will take note of the results of his experiments during lab periods. Symbols and valences are memorized in chemistry, and innumerable tests are performed in identifying certain salts and metals. Learning the structure of the atom enables the chemistry student to make use of the periodic chart.

Experimenting with gases are Dwight Morris, Georgiann Warner, Joyce Paradine, and Ruben Sanchez.

Physics is the science which deals with matter and energy, and the interaction of matter and energy on one another. Since the metric system is the primary unit of measurement, the physics student must know it thoroughly. In physics, one learns about mechanics and forms of energy. Through experimentation, the physics student observes what he reads in the book being performed right before his eyes. Through physics experiments, the student can calculate the velocity of sound; he can also observe the law of strings being put into effect. Other experiments include measuring electrical resistance, and the index of refraction of light.

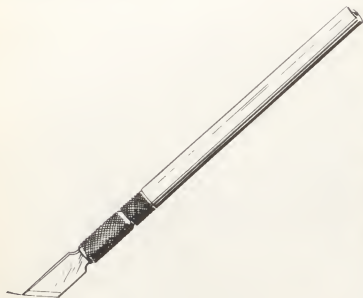

Here, the fifth hour physics class listens to the variations in resonance of tuning forks over an open tube.

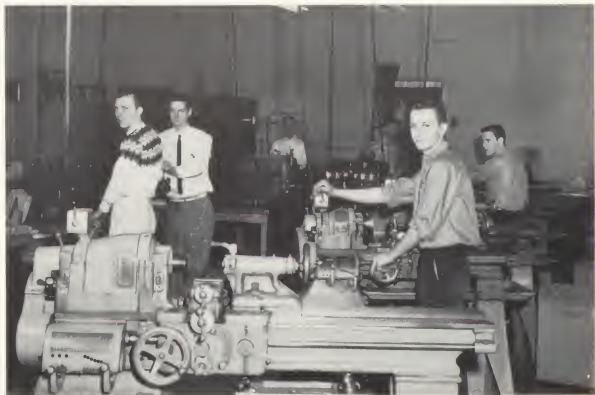

Gordon Klawitter ponders over the measurement of a specific part of his drawing.

An understanding of the graphic language is one of the dividends a boy receives in drafting class. Drafting is a means of conveying ideas through the use of drawings. Drafting class students receive technical instruction on the construction of machines and buildings. The equipment they employ include: the T-square, triangle, compass, divider, drawing board and erasing shield.

Shop Classes Are for Industrial and Creative Minds

In this shop class, the boys are putting the machinery to good use.

Pictured here are Randy Hooten, Tom Snider, Butch Gibbons, John Duncan, and Dick Reid working on their projects in wood shop.

With a vigorous stroke from his trusty hammer, a shop class student proudly puts the finishing touches on his own masterpiece. Creativity is the goal of wood shop. The boys are given an opportunity to work on their own projects using the wood provided for them in class. While working, the boys learn shop safety, management, laboratory planning, and other important things related to the industrial world. The wood shop classes proudly display works ranging from end tables to book cases.

Organization is especially stressed in metal shop classes. Before any work is done with the metals, the boys plan their working procedure, step by step.

Interest is high in both shop classes due to the variety in selection of projects.

The Accent Is on Language

Mr. Watson, above, supervising the new lab recently installed at R.F. This grin that you see on his face is real. For, he enjoys teaching both French and Spanish in 206.

Below is Mr. McCubbins, who teaches Latin in 210. Latin is important, as all other languages are derived from it; and it aids in English class a great deal.

The accent is on language it seems since River Forest acquired Mr. Watson, Mr. Adamczyk, and Mr. McCubbins, foreign language instructors.

The entire Foreign Language department is important in any school; the more fluent Americans become with Foreign tongue—the better we will get along with the countries themselves.

Mr. Watson demonstrates the formation of sentence in French-style. First year students pay close attention, because French grammar is difficult to grasp at first.

Mr. Adamczyk lectures class—probably in Russian since that is the one he teaches in room 216. Is the tongue too coarse for delicate ears like these? From some of the expressions in this shot it's hard to tell.

Math Requires Thinking

Perhaps the toughest courses at River Forest are the mathematics courses.

Trigonometry deals with triangular relationships.

Geometry teaches the student to think logically. This is accomplished by listing the steps in proper order in a geometric problem.

Algebra uses letters in place of numbers.

Here, three algebra students solve one of their problems.

In Mrs. Willing's third period geometry class, the students study relationships concerning polyhedrons.

The benefits of daily exercise are realized in the boys' and girls' physical education classes. Like the students pictured here, they learn to perform stunts and to participate in various sports. The gym students learn coordination and safety in their proper use of the gym and apparatus.

Students Prepare for Business World

With the business world crying out for more and more secretaries, River Forest is striving to produce more and more commercially minded Ingots.

In the typing classes, correct posture is stressed. Rhythm and rapid stroking are concentrated upon.

Memorization of the brief forms is required for shorthand. The students soon come to realize that shorthand uses many long hand strokes.

Carolyn Cornett, Anita Himeline, and Mary Ann Gorincen are calculating bills on the business machines.

Typing isn't so hard, discovers Miss Leaird's third hour typing class, once you know the proper techniques.

Pictured here is Mike Lara being tackled by No. 12, and Bob Topper rushing in to give aid to Mike.

Facing the toughest schedule in the school's history, the Ingots finished the season by putting the cream on the pie and coming off with the best record in the school's books.

On September 5, the Ingots glowed brightly and mauled East Gary, 27-6. This gave them their first victory of the season.

East Gary led through the first quarter, 6-0. The second quarter proved to be the decisive one as the Ingots went on a 21-point scoring spree.

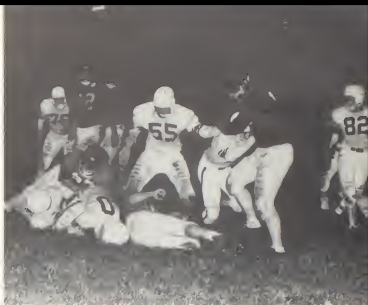

On September 15, River Forest established two records in defeating Walkerton, 32-0. Not only was this the most points scored against an opponent, but the Ingots also recorded their first shut-out in the school's history.

On October 21, River Forest licked Calumet, 20-19, in an action packed game from beginning-to-end.

In winning, the Ingots battled from behind, on four occasions, to beat an opponent who was favored as the winner.

RIVER FOREST — 30

NORTH LIBERTY — 0

LARRY BAXTER Sr. End

River Forest celebrated their Homecoming October 7, with an impressive 30-0 win over the Shamrocks of North Liberty.

More than 2,500 fans watched as the visitors dominated play through the air, and River Forest reigned as complete master in a devastating ground attack.

In the air, North Liberty completed 10 of 20 aerials for 91 yards. Ironically, the Ingots tried but three passes—and rang the bell on all of them.

The fans had hardly settled in their seats when Maple, on the third play, hit through right tackle for 17 yards and a touchdown, giving the Ingots a 6-0 spread.

In the second period, the Ingots marched all the way from their own 20 yard line, climaxing the affair with a shot through center by Lara. The score, 12-0.

Nearing the close of the third period, Lee charged from the 1 yard line, to run the total up to 18-0.

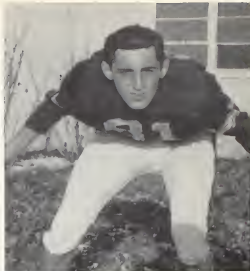

In the longest run of the night, Maple rambled 57 yards through the bulk of the Shamrocks for a fourth TD.

Only moments later, Quarterback Klawitter made a "Johnny Unitas" pass to Fullback Lee, covering 41 yards and totaling the fifth touchdown of the game.

Thus, River Forest climaxed a very enjoyable and worthwhile homecoming.

CULVER 6

In the final game of the season for the Ingots, Coach Bromberg's "fighting eleven" battled Culver Military to a 6-6 standoff.

Starting the game with a series of four plays, the Ingots advanced to the Cadet 19, only to lose the pigskin via a miscue. Culver, unable to gain on the ground, took to the airways. RF's Mitchell grabbed the aerial and headed for paydirt.

In the fourth quarter, Culver cut loose with a ground attack which netted the Cadets 72 yards. The battle reached its climax when a Cadet went for the "promised land."

Fighting against heavy odds is Roger Collins. Coming to even-it-up are: (left to right) Wayne Potts (63), Wayne Bernoska (75), and Norman Maple (44).

It was a dry season this year as far as wins are concerned for the Ingots hoopsters. But, under the leadership of their new Head Basketball Coach, John Newton, the wins came when they counted the most, during the Andrean Tourney. The spirited Ingots defeated the taller East Gary Eagles by twelve points in their first game and came back the following evening to beat Andrean by seven points to win the "Championship" and the first basketball tourney in the history of River Forest High School.

However, with the majority of the Varsity Ingots back next year and the J.V.'s to fill the vacancy left by the graduating Seniors, the team is planning for a successful year next season.

WINS 14

LOSSES 6

This year's Junior Varsity team, under the direction of coach Bill Logan, got off to a quick start. The season started as the Ingots played host to Portage and defeated the visitors 31 to 27. Playing their next four games on the road the J.V.'s continued their winning streak by downing Hammond Cavit 55 to 27, Mt. Ayer 37 to 34, East Gary 34 to 30, and Boone Grove 45 to 40. When the team returned home they beat DeMotte, Liberty Twp., and Thornton Fractional North.

The Junior Varsity team suffered their first loss at the worst time possible. In the Andrean Tourney they

lost their chance for the Championship by losing to East Gary 38 to 33. In their second game of the tournament, the Junior Ingots defeated St. Mary's 43 to 33 for the third place trophy.

After winning over Hebron and St. Mary, the team suffered losses at the hands of Chesterton and Culver.

In their remaining six games the J.V. won 3 and lost 3. They were victorious over Fair Oaks 49 to 28, Westville 39 to 33, and Rolling Prairie 40 to 36, while losing to Dyer, Lowell, and Andrean.

The Ingots are always going after those rebounds, as Wayne Bernoska shows here in the Lowell Game.

Also in the action are Lewis Sink, and Warren Ratcliff.

Whose ball will it be? It's a perfect jump ball as Ray Oldham reaches high in the air to match a Lowell Player. Leon Gumulauski, number 51, Lee Courtney, number 41, and Mike Lara, 23, are poised for action.

"Oh no, you don't," says Wayne Bernoska as he takes a rebound away from two Rolling Prairie players. Helping Wayne is Joe Parker.

"Oh, my head," moans Lee Courtney as the ball appears to bounce off his head, but actually he is fighting for a rebound. Also shown are Bob Topper, Ray Oldham, and Leon Gumulauski.

"No, Joe, that's not the ball," informs Warren Ratcliff to Joe Parker as they scramble for the ball. Also viewing the action is Lewis Sink (21), Wayne Bernoska (43), and Mike Lara (23).

Cross Country

Ingot Harriers had another fine season as has been traditional in River Forest. The Ingots compiled a fine 9-4 record, despite injuries to many key runners.

The highlights of the season came when R.F., for the first time in history, defeated Lew Wallace 20-57 in the second meet of the year. Also placing 8th in both the Hobart Invitationals and Hobart Sectionals out of 24 and 21 teams respectively, in some of the toughest competition in the state.

This year's squad was led by junior George Semerau, whose performance set the school record to a time of 10:23, and Senior Randy Remus, who carried the Ingot Harriers through the Hobart Invitational and Sectionals. The other major point-makers for the squad were: Senior, John Jansen, Juniors: Warren Ratcliff, Tom Van Vleet, and Bob Shirey, and Sophomores, Joe Romo and Bob McKnight.

The Ingots would have had a finer season still, but injuries sidelined such key runners as Seniors: Jerry Ballog, Ike Singleton, and Bill Lute, Capt., and for a part of the season, Tom Van Vleet.

The Ingot Harrier future is bright, although Coach Bill Logan will be hard-pressed to find ample replacements for Randy Remus, a four-year letterman, Bill Lute, Jerry Ballog, Ike Singleton, John Jansen, and Verria Howe, who have been the nucleus of the team for the past three years.

Randy Remus shows the form that made him an outstanding runner in his four years as an Ingot harrier.

Here's the most impressive sight you will ever see in your life—the beginning of a cross-country race. The River Forest Ingots are competing here in the sectionals at Cressmore.

what's their future

The young people you see in these pictures are all on their way to successful careers in one of America's basic industries . . . steel. They decided (as we hope you will decide) to let Inland Steel Company help them plan their future.

Some are gaining knowledge and experience in special trades to become journeyman machinists, carpenters or electricians . . . some are concentrating on certain phases of steelmaking by working in the open hearth shops, the cold rolling mills or the galvanizing lines. Still others are working in laboratories building

a sound foundation for a future in steel research.

Inland offers the high school graduate an excellent opportunity to further his education. Employees may participate in a variety of on-the-job training programs, or they can continue their formal education by registering for evening courses offered by local Purdue and Indiana University Extension Centers.

Plan now to investigate the unlimited opportunities for you in steel . . . with the midwest's own steel company . . . INLAND STEEL.

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million, and the number of people aged 75 and over has increased by 1 million (Office of National Statistics 1999). The number of people aged 85 and over has increased by 300,000 in the same period.

There is a growing awareness of the need to develop services to meet the needs of the ageing population. The Department of Health (1999) has set out a strategy for the future of health care for older people. The strategy is based on the following principles: (1) to ensure that older people have access to the services they need; (2) to ensure that services are of high quality; (3) to ensure that services are cost-effective; and (4) to ensure that services are sustainable.
